RE: License No. 13-18845-01

To whom it may concern:

The purpose of this amendment application is to add a new camera room in the Nuclear Medicine Department as an area of use of radioactive material. A new room diagram is enclosed. The new camera room is in what was previously the staff lounge, which is immediately to the north of the existing Nuclear Medicine Department. One of the restrooms between the two areas will be removed to create a corridor. No other changes to the existing department will occur.

If you have any questions, please feel free to contact us or our consultant Dave Close at 440/350-1242.

Sincerely,

Clete Yoder
